Carrier Objectives

Seeking a challenging position in the software field where I can efficiently contribute my academic knowledge and skills to the growth of the organization and build up my potential career.

Carrier Summary:

With my job experience I am preparing myself with the set of skills which are used in IT industry. From the beginning of my carrier to till date, I have worked in several government as well as private projects. Before this, While I was doing my BSc, I made two web app using Laravel and MySQL and another three Websites using Next.js and React (for front-end) and Node.js, MongoDB and Express. All are up in my github repo. I love to program using python and I have a deep passion for Data Science.

Employment History

Total Years of Experience: 2.5 years

1. Assistant Software Engineer (December 1, 2019 - Continuing)

Organization: Ambala IT

Responsibilities:

    i. I am developing an e-commerce website. For frontend React is used and NodeJs is used for backend API development. My role here as a full stack developer as I am developing both backend and frontend.
https://www.banijjo.com.bd

    ii. I am also working to convert this project using NextJS for server-side rendering to make it more SEO friendly.
https://www.banijjo-new-project.vercel.app

    iii. I am implementing new features on client's demand in our in-house software name "cooperativebdplus". It's a microfinance software like microfin360 of Datasoft.

2. Full Stack Web Developer (February 1, 2018 – November 5, 2019)

Organization: Ennvisio Digital Private Limited

Responsibilities:

i. I worked on two governments projects during my stay in this very company.
ii. I developed the whole teacher's module for Chittagong Veterinary and Animal Sciences University like grade, attendance, results etc.
iii. I worked on the Automation Process which was built for 'Bangladesh Army'.
iv. Both projects were developed by using Laravel Framework and MySQL database and I learned great deal from theses.

3. List of my personal works:
   i. https://laravel-multi-user-role-blog.herokuapp.com/
